

WELCOME

The Chemistry Library is located on the ground floor of the Dipartimento di chimica e chimica industriale / [Chemistry and industrial chemistry department](#).

It holds around 9000 books, in addition to paper and electronic journals.

Please, leave your bags in the lockers, the keys are at the information desk.

First time you visit the library don't be afraid to ask at the Information desk for help with catalogues and the resources of the library.

We hope that you will enjoy studying in Pisa. Please don't be afraid to ask for help whenever you need it!

SERVICES

Reading and borrowing - The library is "open access", so students can search the on-line Library catalogues for books and journals and then go to the shelves to fetch them.

Once you have found the book you want, you may read it in the library without any other permission.

You can ask at the Information desk if you want to apply for borrowing the book. You need to fill in a form to be a registered user. Standard loan books can be borrowed for 15 days. You can even renew your loan afterwards. Some books are only for an overnight loan.

Reference - You can ask at the information desk for help with bibliographic researches.

Inter library loan and document delivery - The Library provides books and articles not owned by the help of other libraries.

Prints and photocopies - Journals, publications and textbooks can be photocopied self service, provided that you observe the copyright law. You can also print.

Internet - Free Wi-Fi Spot: wireless internet access is available by networks "Unipi" (passkey: wifi-unipi ; Username and password required, the same as the student's portal "Alice") and "Eduroam." Moreover 5 wired pc are available to search books, journals and surf internet.

ELECTONIC RESOURCES AND DATABASES

You can read academic electronic journals published by Elsevier, Springer, Kluwer, Wiley, ACS American Chemical Society etc. and search in many databases for bibliographic research.

SciFinder Scholar, Reaxys, Web of Knowledge (with Web of Science), Scopus are some databases we provide you. In addition we have selected on the Risorse web page free resources including Chemspider, Google Scholar, patent databases etc.
